ABOUT RELATED FUND MANAGEMENT

Related Fund Management is the investment management arm of global real estate firm Related Companies, and is staffed by a seasoned team of over 40 professionals. Since inception, Related Fund Management has raised over \$5 billion of capital across a variety of different investment vehicles and strategies. The platform is primarily focused on opportunistic real estate investments; the origination and acquisition of debt; multifamily housing opportunities; and investments in infrastructure-related development, management and services. Capitalizing on decades of experience as a developer, investor and operator and our deep expertise in public-private partnerships, Related Infrastructure invests in, and grows, infrastructure-related businesses and initiatives. Targeted investment opportunities include platforms that develop, service and manage transportation-related assets and municipal assets as well as companies providing infrastructure-related businesses, services and technologies.
